PROFESSIONAL SUMMARY

Experienced IT professional with a strong background in software development, specializing in creating scalable and innovative solutions for the tech industry.

EDUCATION

Maharana Pratap Education Centre   Kanpur, Uttar Pradesh
Bachelor of Technology in Computer Science   *CGPA 6.8 , 2017 - 2021*

EXPERIENCE

Full Stack Developer   December 2023 – Present
Bharat Escrow   *Delhi*
- Mentored and managed a team of interns, providing guidance in full-stack development using the MERN stack.
- Architected and maintained a scalable web application using MongoDB, Express, React, and Node.js.
- Deployed and optimized the application on AWS EC2 with load balancers, ensuring high availability.

Front End Developer   December 2022 – December 2023
Dice Academy   *Delhi*
- Utilized front-end frameworks and libraries such as React and Redux to build user interfaces.
- Optimized web applications for performance and speed.
- Ensured applications worked across different browsers and devices.

Front End Developer   July 2022 – December 2022
Wings Tech Solutions   *Rajkot, Gujarat*
- Utilized frameworks such as React, Redux, and Angular to build user interfaces.
- Optimized applications for performance and efficient loading times.

Web Developer Intern   January 2022 – June 2022
Creware   *Bangalore*
- Translated UI/UX designs into responsive web pages using HTML, CSS, and JavaScript.
- Applied styles to web pages based on design specifications and brand guidelines.
- Identified and fixed minor bugs in the front-end code.

PROJECTS

Logo Design Maker | *MERN, AWS, Load Balancer*   April 2024 – August 2024
- Developed a logo design maker platform using the MERN stack and RTK Query, enabling users to create and manage logos.
- Implemented a scalable architecture for streamlined logo creation and efficient data management.

Bharat Escrow | *MERN, AWS, Load Balancer*   December 2023 – June 2024
- Developed a platform ensuring the security of buyer capital using Escrow accounts for property transactions.
- Automated the management of Escrow accounts for a streamlined real estate investment process.

Bahikhata | *MERN*   January 2022 – June 2022
- Integrated backend APIs into a React portal for a platform that enables shop owners to buy and sell old mobile phones, enhancing operational efficiency.
- Resolved critical bugs within the system, ensuring a smooth and reliable user experience for both sellers and buyers.

TECHNICAL SKILLS

Languages: JavaScript , Node js
Frameworks: Angular, Express
Developer Tools: GitHub, GitLab, VS Code, Trello, Slack, Skype
Devops: AWS , EC2 , Load Balancer , C panel, CI/CD
Libraries: React, Redux, TanStack, Axios, Bootstrap
